Olympia, WA — Leasing is one of the most common ways growers access farmland. Are you an aspiring or current farmer looking to lease land or a landowner looking for a new farmer tenant? Learn about best practices, legalities, insurance and hear how seasoned farmers have developed successful leasing arrangements.

Attorney Jessica Jensen, Jessica Jensen Law PS, will cover the legalities of leasing land, insurance professional Lesa Boxx, Country Financial, will speak about what insurance coverage is needed by tenant and landowner and a panel of farmers will share experience and tips about leasing land.

Attend in person or by webcast:

Classroom attendance is limited to 30 people, so register today! Webcast options are also available for those unable to get a spot in the classroom or who are out of the area. When registering, indicate you will be participating via webcast and we'll send details with final registration confirmation. A light and local dinner will be served for those who attend in person, catered by Ninevah.

This workshop is sponsored by Cascade Harvest Coalition/WA FarmLink through a grant from USDA Specialty Crop Block Grant Program and support from WSU Extension, WSU Thurston County Extension and Thurston Conservation District.
